

Show My Homework – Student Support

There are a number of different features you can use within SMHW to submit work and mark work as completed.

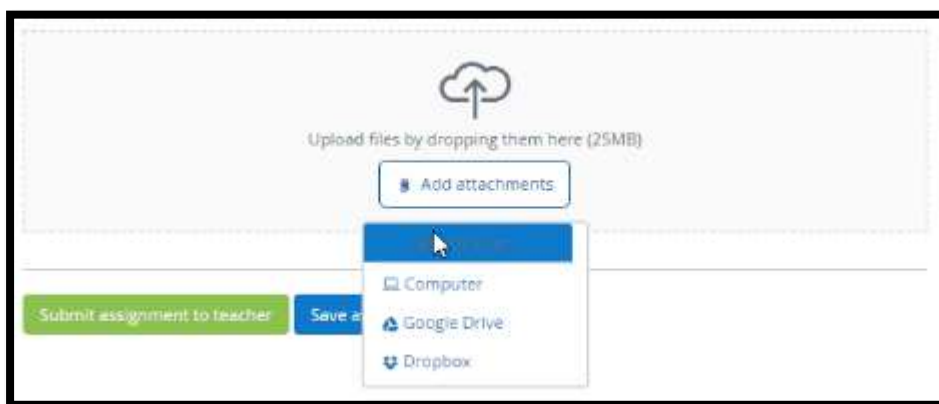

Submitting work online via Show My Homework

If your teacher has set the assignments you are working on at home to allow online submission, you can log on to your show my homework account and submit your work online by following these instructions:

1. On a computer, your online homework will have three tabs along the top: **Description**, **Results**, and **Submit**.
2. Select **Submit**
3. Next, either **type** your answer online in the text editor, or

4. **Upload** a document from your computer, Google Drive or Dropbox

5. Then click on **Submit** assignment to teacher to notify your teacher of your submission.
